## MONTE CARLO, MONACO

The chic city of Monte Carlo in the petite kingdom of Monaco boasts some of the world's most exclusive shopping and a beautiful old port. A fairy-tale aura has settled on this glittering city of the Grimaldi family, perhaps nowhere more elegantly than at the Prince's Palace, where the late American actress-turned-princess Grace Kelly presided with Prince Rainier III. Monte Carlo's medieval quarter perches on "The Rock," an escarpment at the foot of the Maritime Alps, and offers spectacular views of the Mediterranean and the harbor lined with mega-yachts.

## Viking Heritage

Browse our special onboard exhibit and learn about the daily lives, rich history and inspiring legacy of the Vikings. The Viking Heritage exhibit is located in the Atrium on Deck 2, showcasing realistic replicas of fascinating artifacts.

## White Smoke

The white smoke you may see emanating from the ship's funnel is steam. To reduce sulfur in the ship's exhaust, Viking has actively invested in equipment that effectively “washes” the gases and particulates with a mixture of water and sodium hydroxide. A warm, damp exhaust with very low sulfur content is then discharged from the funnel. When this clean exhaust comes into contact with colder air, the water vapor condenses and forms a steam cloud over the funnel, much in the way you see your breath on a cold day. You can also see this process at work in industrial chimneys, particularly on cold mornings.

## Fireplaces

You may have wondered if the fires you see in the Explorers' Lounge and The Nordic Spa are real. We would love to have fireplaces at sea; however, they do not conform to maritime regulations. Instead, we use nature's water vapors and colored light to create the illusion of fire. We hope you enjoy their ambiance.
